The Benefits of SDS-750

The SCAN COIN SDS-750 series is a high-speed note deposit solution for both back office and front office environments. The Smart Deposit cuts the costs of cash handling through internal optimization as well as CIT pick-ups and deliveries. It is a secure, smart and high performing note deposit unit.

Automatic counting
The notes are counted and compiled automatically in seconds. Information of deposits and total sum of each denomination is generated in real-time.

High speed processing
The SDS-700 is one of a kind through its high speed of up to 1,000 notes per minute.

Bundle note deposits
Bundle note deposits of up to 200 notes at a time, make the cash handling process extremely easy and efficient.

Heat seal bag
Secure seal of bank notes inside the safe, controlled by a PC. The staff has no access to the bank notes until the bag is opened at the CIT company. The bag is identified with a bar code, giving you full control and security.

Efficient CIT processes
Through an on-line connection, the CIT company receives information when your machine is full and needs to be emptied.

Small footprint
Since the solution packs the bank notes, it can handle large volumes in a small area. It has a small footprint and can be placed even in the smallest environments.
Superior Financial and Operational Control

The SDS range works seamlessly with the unique monitoring software solution. It is the ultimate management platform for superior financial and operational control of cash. The cash solution is also connectable to any existing network and can be monitored from any remote position. Maximize the value of your business and benefit from best-in-class cash handling technology and system.

- ERP integration
- CIT integration
- Report generation
- POS Integration

Financial control
- Monitoring for maximum uptime
- Automatic reconciliations
- Connected to all devices 24/7

Cash Deposit Solution

Powerful back office
Cash Deposit System
- Streamlined cash handling
- Improved in-store cash flow management
- Proven technology
- High security of cash
- Counterfeit detection
- Serial number recognition
- Optimized CIT deliveries and pickups

Cash Recycling Solution

Front office self-service solution
- Coin recycling unit with note deposit and bundle dispense for efficient cash handling
- Faster payments and increased customer service
- Reduced cash handling costs
- Counterfeit detection
- Serial number recognition
- High security and accuracy
- Simplified cash collections

The Strongest Solution on the Market

The high speed capacity together with high reliability and cutting-edge technology make the SDS-750 one of a kind on the market today. It gives you efficient, safe and reliable cash handling 24/7 with high return on investment. The solution is connected to the smart software platform, which includes all the functionalities needed in the Retail and Banking world. The reliability and flexibility of the SDS-750 make it into a future proof solution adapted for your specific business needs.

Maximize the output

- Scalable solution meets your Needs

Handling cash manually is a time consuming task. We therefore highly recommend you to install the complete cash solution of both a SDS and a coin unit for complete cash automation. Benefit from a complete system including all aspects of your cash handling such as deposit and dispense, CIT collection and reconciliation. It only takes seconds to make a deposit and to get your till ready.

By installing a complete CashComplete™ Solution, you will dramatically decrease the time spent on cash handling. At the same time, you improve security for your employees and let them focus on more valuable tasks such as customer service and support.

SCAN COIN can offer you several solutions, such as back office solutions for cash deposit or cash recycling, as well as front office solutions. We will help you choose the combination of units that best meets your needs, always connected to the unique software platform. Thanks to its software integration, you will get a complete overview of the cash flow and reports will be sent to your financial department.
