Transform Your Cash Handling

Efficiently Cycle Cash All Through Your Business

By integrating the SPS-300 into your front-office POS system, you immediately reduce problems with handling cash. Increase productivity, reduce your working capital and save time by recycling your working capital instead of requesting frequent CIT pickups and deliveries.

Turn Cash into Real Value

The SPS-300 is a powerful automator for your retail POS. Used as a till replacement, the Smart POS Solution validates with a 4-way reader, increasing the integrity of your capital while increasing the safety of your employees. Make this smart solution part of your daily operations, instead of spending hours on administration and counting. This ensures a quick return on investment through dramatically improved cash management.

Versatile Solution for Any Business

The SPS-300 is the ideal solution for industries where cash volume, security, and handling takes up a significant amount of staff time whether you operate a convenience store, grocery store, or other retail business.

Approximate speeds

Decrease Shrinkage

The CashComplete™ SPS-300 will give you full control at the point of sale to streamline your cash handling, expedite the processing of notes, prevent errors and protect your business from shrinkage.

Decreased Working Capital

CashComplete™ software provides accurate and efficient management of in-store cash holding requirements, allowing you to deposit surplus cash into your bank. Our enterprise software makes it simple to monitor your inventory position in real time across your business.

Increase Time Savings

The SPS-300 fully automates your note handling at the point of sale, speeding up the process and allowing you to spend less time managing your cash. When paired with the CRS-600, this solution can completely replace your till, allowing the SPS to handle your cash, which reduces human reporting errors and increases staff safety.

SPS-300 Paired with the CRS-600
